

The FCC should NOT implement any proposal, like 02-278, that would lessen Indiana's Telephone Privacy Law protections. Since this Indiana program has been in place, our dinner time at home has been much more peaceful. We use to receive 9 to 15 telemarketer phone calls between 5:00PM and 7:00PM. That number has now been reduced to approximately 2 per night. Please do not do anything to increase this number! If anything, the FCC should create stronger restrictions on the types of telemarket calls to limit the number of calls throughout the nation.
